

Forget expanding the LPFM's. We want to keep listener-supported FM radio stations like KLOVE (106.7 FM in the Raleigh, Durham, Chapel Hill, Greensboro, NC / Southern Virginia area) on the air.

KLOVE is my favorite radio station and it always will. It serves me and many others as residents of the local community. Without it, I, along with thousands of others, would not be encouraged every day (24 hours per day). Without KLOVE, I'd probably become discouraged and my life would begin to unravel and my family would fall apart.

Without it, I might begin to watch porn again, along with start drinking again.

I believe that the service provided by KLOVE serves the public interest better than any other radio station in our area.

Thank you for your time. Have a wonderful day!!!
